Vision Summit 2026

नई सोच, नई राह, नया मध्य प्रदेश

11 - 12 September 2026

Brilliant Convention Centre
Indore, Madhya Pradesh

Summit Draft Agenda

SUMMIT DRAFT AGENDA

Indore, MP | 11-12 September 2026

09:00 AM
– 10:00 AM

NET WORKING

Registration & Networking

10:00 AM
– 11:00 AM

INAUGURAL SESSION

Inaugural Session

- Lamp Lighting
- Welcome Address by Dr. Ravi Gupta, Founder & CEO, Elets Technomedia and Editor-in-Chief, eGov Magazine.
- Context Setting by Program Chair, Shri Manish Singh, IAS, Secretary, Department of Transport, Government of Madhya Pradesh
- Special Address*
- Guest of Honor Address by Shri Rao Uday Pratap Singh, Hon'ble Minister for Transport and School Education, Government of Madhya Pradesh
- Chief Guest Address by Dr. Mohan Yadav, Hon'ble Chief Minister of Madhya Pradesh*
- Launch of Madhya Pradesh Yatri Parivahan-Focused Special Souvenir by Elets Technomedia.

11:00 PM
– 11:10 PM

BREAK

Launch of Expo Followed by Networking Tea

11:10 AM
– 11:50 PM

PANEL DISCUSSION 1

मध्यप्रदेश मोबिलिटी विज़न 2030 : बस संचालन एवं इंटेलिजेंट ट्रांसपोर्ट मैनेजमेंट सिस्टम (ITMS) में सार्वजनिक-निजी भागीदारी (PPP) को बढ़ावा

MP Mobility Vision 2030: Public-Private Partnerships in Bus Operations and Intelligent Transport Management Systems (ITMS)

Madhya Pradesh's unique geographic scale and rapidly growing urban centres demand a mobility ecosystem that is connected, sustainable, inclusive, and investment-ready. This session will explore how the state can leverage public-private partnerships in bus operations and intelligent transport management systems, to transform passenger transport and improve service quality.

11:50 AM
– 12:05 PM

OPEN SLOT

Open Slot for Presentation- 1

12:05 PM
– 12:35 PM

PANEL DISCUSSION 2

भविष्य के लिए तैयार यात्री परिवहन अवसंरचना : सार्वजनिक-निजी भागीदारी (PPP) के माध्यम से निवेश को प्रोत्साहन

Future-Ready Transport Infrastructure: Accelerating Investment through PPP

This session will explore how Public-Private Partnerships (PPP) can accelerate investments in modern transport assets such as bus terminals, multimodal hubs, electric mobility, and intelligent transport systems. The discussion will focus on innovative financing models, policy support, risk-sharing mechanisms, and successful PPP initiatives that can enhance operational efficiency, improve commuter experience, and drive the next phase of India's mobility transformation.

12:35 PM
– 01:15 PM

KNOWLEDGE SESSION 1

डेटा-आधारित निर्णयन: इंट्रा-सिटी एवं इंटर-सिटी बस मार्गों एवं संचालन की योजना (AI आधारित विश्लेषण सहित)

Decisions Informed by Data: Planning Intracity & Intercity Bus Routes and Operations (including AI-powered Analytics)

This session will explore how State Transport Undertakings (STUs) and urban mobility agencies can leverage Statewide Intelligent Transport Management Systems (ITMS), real-time operational data, and AI-powered analytics to optimize intracity and intercity bus networks, improve service reliability, and enhance passenger experience.

- AI-driven route planning and demand forecasting for intracity and intercity bus operations
- Statewide Intelligent Transport Management Systems (ITMS) for real-time operational efficiency
- Predictive maintenance and fleet optimization to improve service reliability and reduce costs
- Unified Command and Control Centres for integrated transport monitoring and management
- Digital governance platforms for permits, compliance, and passenger service delivery
- Real-time passenger information systems to enhance commuter convenience and journey planning
- Data governance, interoperability, and cybersecurity for secure, connected transport ecosystems
- Leveraging data analytics to build resilient, efficient, and future-ready public transport networks

01:15 PM
– 1:55 PM

PANEL DISCUSSION 3

वित्तीय रूप से सुदृढ़ एवं आत्मनिर्भर सार्वजनिक बस संचालन के लिए रणनीतियाँ

Strategies to Build Financially Sustainable Public Bus Operations

Achieving long-term viability requires public bus services to move beyond farebox dependency. This panel will explore innovative business models, regulatory reforms, and revenue diversification strategies that can strengthen financial sustainability while ensuring affordability and accessibility.

Key Discussion Points:

- Balancing affordability with periodic fare rationalisation
- Viability gap funding and PPP financing models
- Tax incentives and policy support mechanisms
- Leveraging non-fare box revenues
- Advertising, retail, logistics, and naming rights opportunities
- Performance-based contracts and risk sharing

01:55 PM
– 02:35 PM

PANEL DISCUSSION 4

सार्वजनिक परिवहन प्रणाली में सुरक्षा, विश्वसनीयता एवं यात्री सुविधा

Public Safety, Reliability & Comfort in the Public Transport System

Creating a safe, reliable, and passenger-friendly public transport system is essential to increasing ridership and improving urban mobility. This session will explore how State Transport Undertakings (STUs) can leverage technology, modern fleet management, and customer-centric practices to enhance passenger safety, service reliability, accessibility, and overall travel experience, while building greater public trust in public transport.

Key Discussion Points

- Passenger safety through surveillance, emergency response, and ITS
- Fleet reliability through preventive maintenance and operational excellence
- Enhancing passenger comfort, accessibility, and inclusive mobility
- Real-time passenger information and digital passenger services
- Driver training, road safety, and customer experience
- Smart ticketing, grievance redressal, and service quality improvements

02:35 PM
– 03:30 PM

BREAK

Networking Lunch & Visit to Exhibition Zone

3:30 AM
– 3:45 PM

OPEN SLOT

Open Slot for Presentation- 2

03:45 PM
– 04:25 PM

PANEL DISCUSSION 5

हरित मोबिलिटी : स्वच्छ ईंधन एवं भविष्य के लिए तैयार बस बेड़ा

Green Mobility: Clean Fuels and Future-Ready Fleet

The transition to cleaner transport systems presents an opportunity to improve sustainability while modernising passenger services. This session will explore the technologies, infrastructure, and partnerships required to accelerate green mobility adoption across the state.

Key Discussion Points:

- Electric, hydrogen, and flex-fuel buses
- Charging and refuelling infrastructure development
- Modernisation of bus terminals, depots, and stops
- Green depots and energy-efficient infrastructure
- Advanced Driver Assistance Systems (ADAS) and connected vehicles
- Fleet safety, resilience, and lifecycle management
- Transition pathways for existing operators

04:25 PM
– 05:05 PM

KNOWLEDGE SESSION 2

एकीकृत टिकटिंग एवं स्वचालित किराया संग्रह प्रणाली के माध्यम से निर्बाध यात्रा अनुभव

Seamless Passenger Experience via One State, One Journey: Integrated Ticketing and Automatic Fare Collection

Passengers increasingly expect seamless, digital-first travel experiences. This session will explore how integrated platforms, interoperable payments, automatic fare collection and smart mobility solutions can simplify journeys and improve convenience for citizens.

Key Discussion Points:

- National Common Mobility Card (NCMC) implementation
- Unified ticketing across urban and intercity services
- Automatic fare collection
- Open-loop and account-based payment systems
- Mobility-as-a-Service (MaaS) platforms
- Smart contracts for service delivery and performance monitoring
- Digital grievance redressal and citizen feedback systems
- Accessibility and inclusive design for all passengers

05:05 PM
– 05:20 PM

OPEN SLOT

Open Slot for Presentation- 3

05:20 PM
– 05:35 PM

OPEN SLOT

Open Slot for Presentation- 4

PANEL DISCUSSION 6

यात्री परिवहन क्षेत्र में रोजगार एवं उद्यमिता सृजन हेतु केंद्र सरकार की योजनाओं का प्रभावी उपयोग

Leveraging Central Government Schemes to Create Employment & Entrepreneurship in Passenger Transport

The passenger transport sector has immense potential to generate employment and foster entrepreneurship through government-led initiatives and policy support. This session will explore how Central Government schemes such as PM e-Drive Scheme, PM e-Bus Sewa, Pradhan Mantri Mudra Yojana (PMMY), Prime Minister's Employment Generation Programme (PMEGP), Startup India, Stand-Up India, Pradhan Mantri Kaushal Vikas Yojana (PMKVY – Skill India), National Apprenticeship Promotion Scheme (NAPS), PM Gati Shakti National Master Plan and more, can empower transport operators, startups, MSMEs, women entrepreneurs and skilled professionals by improving access to finance, skilling, digital technologies, and business opportunities, thereby accelerating inclusive and sustainable growth in the passenger transport ecosystem.

Key Discussion Points

- Leveraging flagship Central Government schemes to drive employment and entrepreneurship in passenger transport
- Financing opportunities for transport operators, startups, and MSMEs through government-backed initiatives
- Skill development, upskilling, and workforce readiness for the evolving mobility sector
- Promoting women and youth entrepreneurship in transport and allied services
- Digital platforms, innovation, and technology-enabled business opportunities
- Strengthening public-private collaboration to accelerate job creation and sustainable growth

05:35 PM
– 06:15 PM

PARALLEL ROUNDTABLE SESSION

From Startup to Scale-up – Accelerating Mobility Entrepreneurship through Innovation, Incubation & Government Support

Roundtable Discussion in Parallel to the Summit | Time: TBD

From Startup to Scale-up – Accelerating Mobility Entrepreneurship through Innovation, Incubation & Government Support

Roundtable Brief

As Madhya Pradesh accelerates the modernisation of its passenger transport ecosystem, startups and emerging mobility enterprises have an unprecedented opportunity to become partners in the state's transformation journey. From AI-enabled transport systems and intelligent fleet management to EV infrastructure, digital ticketing, passenger information systems, safety technologies, and Mobility-as-a-Service (MaaS), innovation is reshaping public transport.

This closed-door roundtable will bring together government leaders, State Transport Undertakings, investors, incubators, OEMs, technology companies, and startups to discuss how policy support, procurement reforms, regulatory sandboxes, incubation, access to funding, and public-private collaboration can help innovative mobility solutions move from pilot projects to statewide deployment. The discussion aims to identify actionable strategies for building a vibrant mobility innovation ecosystem that creates jobs, attracts investment, and positions Madhya Pradesh as a leading hub for next-generation passenger transport solutions.
