About Elets Technomedia

Established in 2003, **Elets Technomedia** is Asia's leading technology and media research organisation, renowned for its legacy of hosting over **500 landmark conferences**. With a strong footprint across India and the Middle East, Elets has consistently driven innovation through dynamic knowledge-sharing platforms, high-impact national summits, and sector-focused publications such as **The Banking & Finance Post, eGov, digitalLEARNING, and eHEALTH.**

As we celebrate 22 years of excellence, Elets proudly hosts the **67th in-person conference** with the **20th edition of the NBFC100 Tech Summit**. Our events have played a pivotal role in uniting policymakers, regulators, C-suite executives, and tech leaders to accelerate digital transformation and foster inclusive financial growth.

About

The Banking & Finance Post

Since 2015, **The Banking & Finance Post**, a bi-monthly magazine by Elets Technomedia, has blended sharp analysis with deep sectoral insights, tracking the pulse of innovation, regulation, risk, and resilience.

Whether in print or digital, each edition delivers authoritative perspectives on tech-led disruptions, growth trajectories, policy shifts, and strategic leadership shaping the financial world.

Crafted for decision-makers, disruptors, and emerging professionals alike, this is more than a magazine; it's a platform where BFSI innovation commands the spotlight.

About

The Summit

The **20th Elets NBFC100 Tech Summit** stands as a cornerstone of innovation, policy dialogue, and industry transformation in India's **Non-Banking Financial Company (NBFC)** landscape. Since its inception, the Summit has emerged as a national platform where regulators, NBFC leaders, and fintech pioneers come together to shape the future of finance through Trust, Transparency, and Technology.

Organised by **Elets Technomedia**, with **The Banking and Finance Post** as a knowledge partner, the **20th edition of the NBFC100 Tech Summit** is scheduled to take place in **Chennai** on **1st August 2025**. The summit will spark conversations on AI-first lending, regulatory resilience, digital inclusion, and the evolving customer experience.

Key Highlights

150+
Participants

100+
Top NBFCs

NBFC Modernization**

**Green & Social
Lending**

Strategic Discussion Themes

Trust

Building Institutional and Customer Confidence

Focus: Governance, customer experience, and long-term brand value

Discussion Points:

- Rebuilding trust in the era of digital lending and rising defaults
- Role of data privacy and security in customer trust
- Customer-centricity and grievance redressal best practices
- Ethical AI and bias-free credit assessment
- Combating fraud and misinformation in NBFC operations

Transparency

Ethical Operations & Regulatory Alignment

Focus: Compliance, disclosures, and operational clarity

Discussion Points:

- RBI digital lending guidelines – how NBFCs can adapt and lead
- Transparent pricing and disclosure norms in digital products
- Balancing growth with responsible lending practices
- Auditing algorithms: Ensuring explainability in automated decisions
- ESG (Environmental, Social, Governance) as a rising NBFC metric

Technology

Driving Scalable, Secure, and Inclusive Growth

Focus: Innovation, scalability, and digital transformation

Discussion Points:

- Embedded finance and API-led NBFC ecosystems
- Cloud-native NBFCs: Core modernization for agility and speed
- Cybersecurity & resilience in digital operations
- AI/ML in underwriting, collections, and fraud detection
- Serving Bharat: Tech-enabled rural financial inclusion strategies

Testimonials

Russell Chen

Country Manager
SAARC Region, Synology

"We've been in India for over 15 years and have seen tremendous growth, 60% year-on-year in the last three years alone. The NBFC sector, especially with its long-term data retention needs, is a key focus for us. This summit has been extremely well-organized. We've met both existing and potential clients, many of whom are C-level decision-makers, exactly the people we need to speak with to showcase our storage solutions. I truly appreciate being part of this event. Flying in from Taiwan, I've always found Indian people very warm and hospitable, and today's experience has only reaffirmed that. Thank you for having us."

Sabyasachi Das

Chief of Affinity Business
MediBuddy

"The NBFC100 Tech Summit has been brilliant. The energy, networking density, and quality of engagement have been exceptional. It's refreshing to see meaningful, high-level conversations happening across stakeholders. I had a great session and truly appreciated the opportunity to share MediBuddy's mission with such a relevant and engaged audience."

Aditya Agarwal

Tablets Product Head
Lenovo India

"It's a very exciting category because the kind of solutions and the kind of people you have here exhibiting their solutions is quite interesting. We have a diverse range of people showcasing their products. The eminent speakers have been asking the right questions—from what do I need to do at the back end to how do I reduce friction for the customer. And I think the whole engagement it's a highly engaging one. It's not a one-way conversation. You guys have taken the effort to make it engaging and of value to both the people attending and the people exhibiting. That's something I liked."

Dr. Saibal Paul

Associate Director
Sa-Dhan

"Technology has transformed our industry—from pen and paper to digital client sourcing and MIS systems. While repayment digitisation is still evolving, we believe with the next generation of clients, technology adoption will accelerate, though we must maintain close client relationships. The NBFC Tech Summit is invaluable, providing fresh insights and raising awareness even for experienced professionals. Events like these help us learn continuously and shape the future of the NBFC industry."

Testimonials

Lakshminarayanan Duraiswamy

Managing Director
Sundaram Home Finance

"It's always a pleasure to attend a summit that brings the NBFC and HFC community together. Events like these help us connect as industry colleagues, share common challenges, and find collective solutions. The housing finance sector continues to show resilience post-pandemic, with strong customer confidence and growing demand, especially from Tier 3 and Tier 4 towns in South India. Contrary to assumptions, these smaller towns are highly tech-savvy—technology is playing a pivotal role in their rapid growth."

Raman Aggarwal

Chief Executive Officer
FIDC

"I must commend Elets Technomedia and the entire team for their unwavering focus on the NBFC sector. For over eight years, they've consistently organised NBFC-specific summits across the country—an effort that truly deserves recognition. As FIDC, we've always found value in partnering with these forums because they create awareness, highlight the sector's contributions, and keep stakeholders updated on ongoing developments."

Nikkitha Senthil

Product Marketing Manager
Zoho ZeptoMail

"We leverage our large Zoho ecosystem for cross-selling, prioritize organic marketing through content, and emphasize engagement over conversion in our campaigns. Events like the NBFC Tech Summit are crucial, they provide direct industry insights and customer feedback that help us refine features, enhance support, and understand regulatory needs better. It's a great platform to connect with NBFCs and align our product evolution with their expectations."

Rishi Tandon

Chief Sales Officer
SmartPing

"As OEMs with deep industry roots, SmartPing goes beyond just delivering messaging solutions—we take a consultative, customer-first approach. In today's over-saturated tech environment, what sets us apart is our ability to truly understand the customer's ecosystem and craft tailored communication strategies that drive engagement and ROI. Events like the NBFC100 Tech Summit offer a unique opportunity to engage directly with NBFC leaders, gather real-time feedback, and showcase how tech like conversational AI, RCS, and rich media messaging can transform enterprise-customer relationships. It's an essential platform to bridge innovation with industry demand."
